Legendary Brazilian Anoles Rediscovered | Anole Annals On late 2014, Dr. Rodrigues and his students (including co-author Mauro Teixeira Jr.) launched an expedition to the mountains of Santa Teresa (state of EspÃ-rito Santo, Brazil), the type locality of both *A. nasofrontalis* and *A. pseudotigrinus*. After a few days (and nights) of search, the team spotted the first *A. pseudotigrinus* in decades. The adult female was found sleeping on a narrow branch, (probably) unaware of its significance for South American biogeography (so were we).
